# LDA Topics

## Topic 1

designing interactive systems
factor computing systems
human factor computing
conference human factor
chi conference human

## Topic 2

natural language process
big datum society
artificial intelligence machine
new medium society
machine learning model
social medium platform
large language model
natural language processing
generative artificial intelligence
new york times

## Topic 3

dunne raby speculative
social dreaming mit
everything design fiction
fiction social dreaming
raby speculative everything
human machine communication
speculative everything design
design fiction social
dreaming mit press
new york new

## Topic 4

chi association computing
machinery new york
new york usa
association computing machinery
computing machinery new

## Topic 5

human computer interaction
design speculative design
craft speculation digital
design craft speculation
speculative critical design
speculative design craft
auger speculative design
speculation digital creativity
generative adversarial network
latent dirichlet allocation

## Topic 6

conference computational creativity
arxiv preprint arxiv
international conference computational

## Topic 7

sarah fdili alaoui
dance movement ideation
conference movement computing
charles patrick martin
virtual event usa
june virtual event
generative model dance
advance neural information
conference creativity cognition
neural information processing

## Topic 8

personal classroom grant
work personal classroom
copy part work
digital hard copy
permission make digital
november taipei twn
cscw november taipei
make digital hard
hard copy part
part work personal

## Topic 9

interactive systems conference
systems chi association
chi april hamburg
entoptic field camera
april hamburg germany
computing systems chi
systems conference dis
dis july pittsburgh
july pittsburgh usa

## Topic 10

new york cambridge
design social robot
humanrobot interaction hri
aniaga hoffman paiva
conference humanrobot interaction
creativity robots figure
international conference humanrobot
human robot interaction
doi boost creativity
design process robot

## Topic 11

humancentered artificial intelligence
interact cscw article
comput interact cscw
proc hum comput
systems chi association
york usa article
hum comput interact
user interface iui
springerverlag berlin heidelberg
conference fairness accountability

## Topic 12

online available access
cut july eindhoven
research new media
international journal research
effect conversational system
convergence international journal
journal research new
new media technologies
july eindhoven netherlands
critical technical practice

## Topic 13

boost creativity robots

## Topic 14

hci researcher practitioner
experiential speculation visionbased
visionbased design education
chi honolulu usa
international journal design
journal design vol
learn medium technology
speculation visionbased design
future hcipolicy collaboration
huang wenxuwen funk

## Topic 15

association computing machinery
big pine tree
plunge among big
issn doi url tree trail well
doi url page
new york usa
among big pine
pine tree trail
trail well mark

## Topic 16

conclusion future work
ideas filtering iteration
psiia psiib psii
cogeneration dsii psiia
psiv testing dsiv
design fiction scenario
dsii psiia psiib
appendix iii user filtering iteration dsiii
user testing session

## Topic 17

rightaligned session title
add centered rightaligned
future creative tool
labels creative usage
perception speculative labels
investigating consumer perception
consumer perception speculative
speculative labels creative
creative usage medium
centered rightaligned session

## Topic 18

kristian nymoen jim
interactive dance movement
international conference movement
mixture density recurrent
density recurrent neural
motion capture datum
recurrent neural network
mixture density network
embody interactive dance
motion capture recording

## Topic 19

dec online available
access dec online
abstract holographic dalle
access jul online
life abstract holographic
jul online available
figure figure figure
abstract holographic stable
usa association computing
york usa association

## Topic 20

ethical design framework
thing talk discursive
discursive design approach
discursive design strategy
relational thing talk
perlocutionary effect conversational
figure infinite guide
practicebased research inquiry
talk discursive design
plymouth school creative

## Topic 21

sigcse association computing
computer science education
icer august chicago
august chicago usa
large language model
arxiv preprint arxiv

## Topic 22

value system loop
journalist legal expert
domain experts value
future meme creator
june virtual event
dis june virtual
virtual event australia
meme creator ownership
design fiction concept
like value system

## Topic 23

koering enact cybernetics
questionnaire appendix online
online questionnaire appendix
idea cogeneration dsii
prototype design psiv
design psiv testing
appendix online questionnaire
study dsi psi
exploratory study dsi
enact cybernetics dsi

## Topic 24

research council centre
centre excellence digital
speculative design case
perspectives japan participatory
participatory speculative design
metaverse perspectives japan
japan participatory speculative
design case study
excellence digital child
council centre excellence

## Topic 25

term condition online
library term condition
shibboleth online library
durante download shibboleth
future scenario generate
creative commons license
download shibboleth online
online library term
condition online library
online library rule

## Topic 26

license permit share
original author source
common attribution international
term creative common
series cultural computing
creative commons license
chapter creative commons
art design technology
attribution international license
liggett creativity art

## Topic 27

available access june
jul dez issn
novo hamburgo jul
industries journal novo
brazilian creative industries
creative industries journal
journal novo hamburgo
hamburgo jul dez
generative machinic exploration

## Topic 28

appropriate credit original
give appropriate credit
medium format long
license term creative
creativity art design
include chapter creative
springer series cultural
creative common attribution
international license permit
long give appropriate

## Topic 29

generate breathing waveform
waveform generate gansjine
cane generative deep
human breathing waveform
deep generative model
generative deep learning
respiratory care expert
respiratory care generative
breathe waveform generate
group respiratory care

## Topic 30

figure machine living
access march available
accessed march available
