

LDA Topics

Topic 1

human machine
natural language
interaction design
design fiction
speculative design
design process
critical design
human factor
factor computing
conference human

Topic 2

meme creator
creative tool
machine learning
creative process
social medium
case study
computer science
international journal
art design
create new

Topic 3

production process
same time
look like
human computer
literature review
speculative design
future work
synthetic medium
take place
machine learn

Topic 4

new form
system design
smart mirror
open future
artificial intelligence
of page
new york
fit piece
decision make

Topic 5

training datum
computational creativity
machine learning
datum set
generative model
international conference
neural network
march available
motion capture
deep learning

Topic 6

chi conference
conference human
human factor
computing systems
computing machinery
york usa
new york
association computing
machinery new
factor computing

Topic 7

online available
research question
focus group
prototype design
design research
design fiction
design psiv
gravity sketch
iterative technology
participatory design

Topic 8

online library
scenario generate
imaginative futuremaking
commons license
human creativity
future scenario
new technology
creative commons
graphic design
design thinking

Topic 9

humanrobot interaction
international conference
design process
boost creativity
creativity robots
social robot
creativity research
new york
systematic review
creativity intervention

Topic 10

relational thing
breathe waveform
respiratory care
conversational system
generative deep
infinite guide
thing talk
deep learning
perlocutionary effect
discursive design
