

LDA Topics

Topic 1

design tool
new york
black box
make sense
human machine
artificial intelligence
machine learning
natural language
conversational agent

Topic 2

design tool
new york
black box
make sense
human machine
artificial intelligence
machine learning
natural language
conversational agent

Topic 3

digital medium
new form
create new
dunne raby
system design
social medium
artificial intelligence
research project
decision make
graphic design

Topic 4

machine learn
training datum
arxiv preprint
neural network
generative model
language model
preprint arxiv
computer vision
deep learning
synthetic medium

Topic 5

research development
product service
art design
future research
creative process
case study
new way
new york
design technology
cocreative system

Topic 6

international journal
conference human
design practice
participatory design
humancomputer interaction
design research
design process
human factor
future work
research design

Topic 7

critical design
computer interaction
human creativity
human computer
machine learning
same time
science technology
social science
artificial intelligence

Topic 8

image generation
human value
large language
artificial intelligence
generate image
computer science
research council

Topic 9

international conference
computational creativity
creative practice

Topic 10

user experience
online available
research question
feel like
design fiction
critical design
focus group
design process
interaction design

Topic 11

chi conference
conference human
machinery new
computing machinery
factor computing
new york
york usa
association computing
computing systems
human factor

Topic 12

hybrid intention
technology development
design thinking
mit press
creative tool
design approach
young people
new medium
commons license
relationality persuasiveness

Topic 13

user testing
live coding
production process
gravity sketch
virtual environment
prototype design
immersive technology
testing dslv
literature review
virtual reality

Topic 14

humancut interaction
design process
systematic review
social robot
creativity robots
boost creativity
creativity research
creativity intervention

Topic 15

discursive design
relational thing
perlocutionary effect
conversational system
infinite guide
design strategy

Topic 16

family member
life abstract
abstract holographic
figure figure
memento flori
online available
jul online
access jul
memory capsule

Topic 17

neural network
design education
dance movement
mime creator
motion capture
datum set
aigenerated dance
mixture density
internet meme
recurrent neural

Topic 18

synopsis scenario
writing process
doi url
issn doi
scenario writer
smart mirror
url page
synopsis writer
design workbook
scenario synopsis

Topic 19

predictive futuremaking
hci policy
machine living
access march
future scenario
march available
smart home
imaginative futuremaking
accessed march
online library

Topic 20

human breathing
psiv testing
care expert
generative deep
breathe waveform
respiratory care
deep learning
breathing waveform
design psiv
virtual production
