LDA Topics

Topic 1
abstract chi conference
designing interactive systems
chi conference human
conference human factor
human factor computing
factor computing systems
sigchi conference human
interactive systems conference
factor computing system
extended abstract chi

Topic 2
auger speculative design
springer international publishing
artificial intelligence machine
speculative critical design
human computer interaction
natural language process
new york new
speculative design craft
design craft speculation
craft speculation digital

Topic 3
deep learning model
conference creativity cognition
deep neural network
mixture density network
arxiv preprint arxiv
generative adversarial network
mixture density recurrent
advance neural information
future creative tool
neural information processing

Topic 4
designing interactive systems
association computing machinery
chi conference human
human factor computing
conference human factor
computing systems chi
new york usa
factor computing systems
entropic field camera
systems chi association

Topic 5
anthony dunne fiona
dreaming mit press
design fiction social
speculative everything design
raby speculative everything
fiction social dreaming
everything design fiction
social dreaming mit
dunne raby speculative
dunne fiona raby

Topic 6
august chicago usa
focus group discussion
arxiv preprint arxiv
machine learning model
large language model
social medium platform
generative artificial intelligence
new medium society
icer august chicago
natural language processing

Topic 7
chi association computing
new york usa
machinery new york
computing machinery new
association computing machinery

Topic 8
personal classroom grant
work personal classroom
copy part work
digital hard copy
permission make digital
make digital hard
hard copy part
part work personal
classroom grant fee
grant fee provide

Topic 9
labels creative usage
speculative labels creative
consumer perception speculative
conference humanrobot interaction
creativity research journal
international conference humanrobot
investigating consumer perception
perception speculative labels
human robot interaction
creative usage medium

Topic 10
computational creativity iccc
international conference computational
conference computational creativity
new interface musical

Topic 11
conference movement computing
charles patrick martin
density recurrent neural
recurrent neural network
motion capture datum
virtual event usa
june virtual event
generative model dance
international conference movement
embody interactive dance

Topic 12
unknown planet practice
practice politics artificial
cscw november taipei
november taipei twn
april hamburg germany
chi april hamburg
explorer unknown planet
politics artificial intelligence
artificial intelligence visual
planet practice politics

Topic 13
filtering iteration dsiii
dsii psiia psiib
psiia psiib psiii
design fiction scenario
psiv testing dsiv
prototype design psiv
design psiv testing
idea cogeneration dsii
cogeneration dsii psiia
appendix online questionnaire

Topic 14
make safe humans
safe humans conversation
figure author photograph
human social world
human machine communication
taylor francis group
creative practice ethnography
friend digital medium   humans conversation siri
socialbots friend digital

Topic 15
york usa association
abstract holographic dalle
usa association computing
access dec online
access jul online
life abstract holographic
jul online available
figure figure figure
association computing machinery
abstract holographic stable

Topic 16
creativity robots figure
boost creativity robots
alvestolivres arriaga paiva
arriaga paiva hoffman

Topic 17
proc hum comput
design case study
japan participatory speculative
participatory speculative design
york usa article
metaverse perspectives japan
perspectives japan participatory
speculative design case
hum comput interact
comput interact cscw

Topic 18
industries journal novo
jul dez issn   hamburgo jul dez
creative industries journal
brazilian creative industries
international journal design
journal design vol
journal novo hamburgo
novo hamburgo jul
visionbased design education

Topic 19
future meme creator
meme creator ownership
access march available
accessed march available
figure machine living
possible future meme

Topic 20
creative common attribution
art design technology
series cultural computing
chapter creative commons
creative commons license
include chapter creative
springer series cultural
creativity art design
term creative common
common attribution international

Topic 21
synopsis scenario synopsis
trail well mark
tree trail well
among big pine
issn doi url
doi url page
plunge among big
big pine tree
pine tree trail
scenario synopsis scenario

Topic 22
value system loop
like value system   dilruba showkat eric
design fiction concept
june virtual event
virtual event australia
dis june virtual
domain experts value
journalist legal expert
experts value expectation

Topic 23
ethical design framework
talk discursive design
practicebased research inquiry
figure infinite guide
perlocutionary effect conversational
relational thing talk
effect conversational system
discursive design strategy
discursive design approach
thing talk discursive

Topic 24
term condition online
library term condition
shibboleth online library
creative commons license
future scenario generate
durante download shibboleth
download shibboleth online
online library term
condition online library
online library rule

Topic 25
group respiratory care
care generative deep
human breathing waveform
deep generative model
generative deep learning
respiratory care expert
respiratory care generative
breathe waveform generate
waveform generate garaspire
generate breathing waveform
